

CALL TO THE TRANSITION MOVEMENT TRIBE

Hello everyone,

I am writing to you because we have the opportunity to participate in an event that could very well interest us as a community: the **Week of the Art of Collaboration**, a gathering that will bring together all communities aligned with the spirit of Collaboration, from **the 23rd of June to the 1st of July, in San Sebastián, the Basque Country.**

You can have a look at the website here: www.theartof-co.com

WHO IS PARTICIPATING?

There will be representatives from several organizations or “tribes” (to use the language coined by the organizing team), including Group Facilitation, Dragon Dreaming, Art of Hosting, Theory U, Co-Working, Visual/Design Thinking, Co-Housing, Agile, Sociocracy, Process Work, Permaculture, Teal/Integral, Impact Hub...

OBJETIVE:

The objective of the event is to bring people together to learn about collaboration and at the same time experience directly the power of working together for change. For this reason, the event is divided in two parts:

- ❖ **Co-Learning**, to learn about new methodologies
- ❖ **Co-Laboratorio**, a space for groups or “tribes” to come together and co-create

An invitation has been sent out to everyone who would like to participate, both individually and in representation of aligned organizations, to facilitate the transition towards the age of collaboration, connect the different tribes and co-create something new.

HOW?

We we want to participate, there are several ways to do it:

- ❖ **As an organization** in the conversation among “tribes” in the Co-Lab, or as presenters or workshop leaders to enrich the program offered during the **Co-Learning** during the week.
- ❖ **Individually** as regular participants.

These two forms of participation are not mutually exclusive (it is possible to attend as part of the group or “tribe”, and also be a presenter or facilitator, or simply attend as participant to the Co-Learning).

The organizing team has asked us for there to be only one spokesperson as point of contact with the entire tribe: **I volunteer to be the coordinator to manage everything relating to communication, signing up and logistics.**

TO PARTICIPATE AS AN ORGANIZATION OR “TRIBE”

If we can get **at least 15 people** from our tribe to go, we can enjoy several benefits that would be accessible during the event:

- ❖ Access to a meeting room for our internal meetings to continue our organizational processes.
- ❖ Professional facilitators will be available to accompany us if necessary.
- ❖ Time and spaces to meet among ourselves and with other tribes to learn about what is being done elsewhere, how people are getting organized, what problems they are encountering, and maybe even create a common project.

DISCOUNTS:

If we participate as part of the tribe, regardless of whether we can get 15 people or not, we being offered individual discounts depending on which parts of the event we would like to attend:

- ❖ In the Co-Lab (weekend, weekdays, or entire week):
 - *25% discount. Discount Code: COLABTT*
- ❖ In the Co-Learning (weekend or weekdays):
 - *10% discount. Discount Code: COLEARNTT*
- ❖ In everything (Co-Lab+Co-Learning or FullPass Co-Learning):
 - *15% discount. Discount Code: FULLTT*
